

LYNGSOE LIBRARY MATE™ 5000

WALL-MOUNTED, HEIGHT ADJUSTABLE SELF-SERVICE RETURN FOR PATRONS

Easy-To-Use Patron Return

Integrating into the Lyngsoe Sort Mate™ sorting system the Lyngsoe Library Mate™ 5000 allows patrons to return materials quickly by themselves, relieving staff from the repetitive work of checking-in and intermediately shelving materials. It feeds directly into the sorter, and the Library Mate software communicates directly with the ILS/LMS to change status of materials immediately.

BARRIER FREE PATRON ACCESS

As a special option in the Library Mate software (v3.30 and newer), when using the touch screen, you can offer special barrier free functionalities by means of specially designed easy-to-read fonts and voice guidance. When feeding materials directly into the Sort Mate sorter, the height is easily adjusted by push of a button.

Integrated Induction

The Library Mate 5000 is a wall-mounted check-in station (with the optional patron card reader) feeding materials into the sorter. All Library Mates communicate seamlessly with the ILS/LMS via the dedicated Library Mate software.

Touch Screen Opens Opportunities

The touch screen opens up for choice of language in the Library Mate software and leads the patron comfortably through the return process all the way to the optional printing of receipts with your choice of text. Immediate feedback to the patron makes the process easy.

Benefits

- Height-adjustable
- Immediate change of material status
- Multi-language touch screen
- Barrier free patron access

LYNGSOE LIBRARY MATE™ 5000

Specifications

Dimensions	Frame: 125 mm D x 750 mm W / 5" D x 29.5" W Shelf: 1000 mm W x 200 mm D (from frame) / 39.5" W x 8" D (from frame) Tunnel: 800 mm L; max. angle: 7 degrees
Power	100-240 V AC 50-60 Hz
