

LYNGSOE RETURNBIN™

LOCKABLE METAL BIN FOR RETURNED MATERIALS AND EASY TRANSPORTATION

SAFEGUARD YOUR RETURNED MATERIAL

Lyngsoe ReturnBin™ with cover (a closed lid) is a simple way to ensure that the items returned are not accidentally available for the next person if the item has a hold or some other exception to it. The sorting feature of the Librid self-check software recognizes the exception and asks the patron to place the book into the return bin. The lockable cover keeps the items out of reach from the next patron.

SUITABLE FOR LARGE VOLUMES

In terms of both material size, number of materials capacity and maneuvering, the return bin offers great flexibility. As the return bin has large, easy-rolling wheels, and is neither too big nor too small, you can easily place it anywhere in the library.

“I’M FULL” INDICATOR

There is no need to open the lid to check if the bin is full. On the front side of the return bin, we have designed a pattern of small holes so it is easy for you to see how much the return bin is loaded and if it needs to be emptied.

EASY TRANSPORTATION

Use the return bin as a stand-alone container in connection with a self-service station, providing easy transportation of a bulk of returned materials to your sortation area. The two handlebars in front of the lid and the large, easy-rolling wheels allow for smooth steering over any flooring with minimal effort to move.

MINIMAL DROP AND PICK-UP DISTANCE

The integrated intelligent spring load design automatically lowers and raises the bin floor as the loaded weight changes. This minimizes the distance when materials are dropped into the bin and, to protect the materials even more, the bin floor has a soft layer. Furthermore, the automatic floor adaption design gives a good ergonomic work position for the library staff when emptying the bin and makes it an easy task.

BENEFITS

- High capacity
- Suitable for all materials
- Ergonomic design
- Easy maneuvering
- Cylinder lock keeps the materials safe

SPECIFICATIONS

LYNGSOE RETURNBIN™

Dimensions	600 x 600 x 1000 mm (W x D x H) / 23.6 x 23.6 x 39.4"
Weight	15 kg / 33 lbs
Load capacity	Max. 120 kg / 264.6 lbs Approximately 150-200 assorted materials
Standard color	Black
Suitable for receiving	Library materials (books, magazines, CD/DVDs, etc.)
Lock	Cylinder lock
